The goal posts acquired are now on the playing field, but their final position needs to be considered. It was agreed that if nets could not be found, the council will look at funding them and costs will be bought to the next meeting. It was good to note that there have been no incidents of rubbish being dumped on the field since the summer when it was cleared. There is a pole missing from the gate, Cllr Macey advised that he would look at replacing this.

207/05 Public points from the floor:

There is a concern with the application received from Wallops Defence Systems to gain consent for the establishment of an explosives storage and manufacturing factory adjacent to their existing licensed explosives factory. Cllr Hope advised the public that planning had already been approved 2 years ago and the matter in question now was for the license. The public wanted to know what type of explosives will be used. This will unfortunately remain classified. There is a meeting to discuss the application Tuesday 22nd February at the regulatory committee at Hampshire County Council and the findings will be reported back to the council in due course.

There is an increasing amount of rubbish lying around by the pavilion. The clerk will write to the 3 clubs that use the pavilion to remind them to clean up when they leave. The point was raised regarding the South East England Regional Assembly. What exactly does this committee do and how much is it costing the taxpayer. Mr Jones advised the council that TVBC currently contribute the sum approximately £4000.00 to SEERA, but nobody gets to vote for this and they seem to do so little. Cllr Hope advised the floor that the Borough Council wrote to the ODPM in the past advising that they did not support it.

It was noted that light number 2 was still dirty. The clerk will follow this up.

There being no further business, the meeting closed at 9.30pm. Sandra Holloway - Clerk
